M-Pro7® Gun Oil LPX – New Product

Phoenix, AZ (December 7, 2009) - M-Pro7 unveils next generation technology in the new M-Pro7 Gun Oil LPX. More than just a gun oil, this product replaces all gun oils, cleaner-lubricant-protectants (commonly known as “CLPs”) and dry lubes. M-Pro7 Gun Oil LPX provides the benefits of current lubricants while mitigating typical drawbacks such as evaporation, separation, gumming and toxic odor.

Most gun lubricants on the shelf today are formulated from decade-old technology. M-Pro7 conducted extensive cross-industry research of recent lubrication advancements which led to a breakthrough: an innovation in blending synthetic oils, liquid molybdenum and polymers. The new LPX additive contains a component with the lowest known friction coefficient which means that it is slick as physically possible.

M-Pro7 Gun Oil LPX also contains a non-solvent based cleaning agent. This new technology repels dust/dirt and can be used as a “cleaner” to remove surface carbon in the field. *M-Pro7 Gun Cleaner should be used for periodic deep cleaning and removal of embedded fouling (Garrison Level Cleaning).*

M-Pro7 Gun Oil LPX is the only commercial product to pass the initial testing for the recently updated military weapons specification (MILSPEC) including the 900 hour humidity cabinet corrosion and 100 hour salt spray corrosion testing. Most military “CLPs” commercially available are not the same formula sold to the military, even the well-known brands. M-Pro7 Gun Oil LPX provides unparalleled protection against wear, humidity, moisture, including salt water and leaves a long-lasting film that repels dust/dirt. This film will not evaporate and is excellent for long-term storage.

Testing by the Environmental Protection Agency details that this oil technology biodegrades and demonstrated no ill health effects including inhalation, oral ingestion or skin.

M-Pro7 Gun Oil LPX is the next generation of lubricant, protectant with cleaner for advanced military and law enforcement style handheld and crew-served weaponry used in extreme environment operations.

M-Pro7 Gun Oil LPX is available online and at fine sporting good outlets. Please visit www.MPro7.com.

M-Pro7® Weapons Maintenance products were designed for the military, law enforcement and high use weapons. M-Pro7 technology reduces weapon maintenance time up to 80%, exceeds MILSPEC cleaning system requirements and is commercially transportable world-wide. In line with Pantheon's standards for safe technology, all M-Pro7 products are odorless, non-toxic, non-hazardous, biodegradable, non-flammable and environmentally friendly.

M-Pro7® is a registered trademark of Pantheon Enterprises, Inc., Phoenix, AZ. Pantheon is a privately held industrial chemical manufacturing company that replaces toxic chemicals and processes with high performance non-hazardous technology. Pantheon sets the standard for corporate responsibility through proactive ideas and products that accelerate global sustainability while producing profits.
